Then, follow instructions for lines 5 and 6. You will only be allowed to claim this credit if you report in a timely manner. Do not count the number of days a car is idle into the Idle Car Allowance if you are claiming credit for maintenance and repair on that car. If you are claiming both this credit and the idle car allowance for the same railcar you must provide documentation supporting why the impairment to value exceeds the credit for maintenance and repairs. *Please Note: Your credit may be reduced proportionally if the credit applied for by all timely reporting Railcar Companies exceeds \$2,800,000 Per IC 6-1.1-8.2-5 2b.*
